

Xinyi and Yeo Yi Quan - July 15

VIEW RECORDING - 20 mins (No highlights)

@0:10 - Sports Nutritionist James (yeoyiquan@gmail.com)

How is your last one week you shared based on how you feel based on the photos?

@0:24 - Xinyi

Last, last week actually, I didn't photo. Yeah, last week I didn't have a photo. That's based on memory. I didn't put fitness style.

Oh, okay.

@0:37 - Sports Nutritionist James (yeoyiquan@gmail.com)

It was little bit off-text.

@0:38 - Xinyi

When I was I would night. Then put it on. Then I would put Then would put it for a few days.

Okay. Bye. But overall, you shared it. I still have to eat what I'm But last week, I was... This is when I was own, like, potatoes and eggs.

Okay.

@1:08 - Sports Nutritionist James (yeoyiquan@gmail.com)

Yeah, then like, I think it's my all-time favorite, like, potatoes. Okay. When I was eating, I was like, eh, not bad.

@1:15 - Xinyi

Then I was just eating dinner.

@1:18 - Sports Nutritionist James (yeoyiquan@gmail.com)

Okay.

[@1:19](#) - Xinyi

Yeah, then after that, had to go, I had to to I had to go, had go. Yeah, and then...

[@1:28](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

I think I had to go buy my Doricu.

[@1:32](#) - Xinyi

like, There is potato and a Doricu. like, it's little more the Yeah, so I just had to eh, like, more other.

Okay. So in that sense, Last, this is the bus, right? Okay, but Stable is around

[@2:00](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

So-8, 7-9, so you 7-8, 7-10.

[@2:11](#) - Xinyi

Okay.

[@2:13](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

Then, as you say, around 7-7, 7-8.

[@2:19](#) - Xinyi

Yeah, yes.

[@2:21](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

Then Karen uses about 7-9. Yeah.

[@2:33](#) - Xinyi

Yeah, to put it simply How do you personally feel about it Then from that moment Can you talk about How we want to take over The action planning part I feel just a little I still have a little guilty Just like Okay Like I'm sure I want to But I still want

It's like, what I'm not supposed eat. Is it because you have little deprived of that feeling?

[@3:08](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

What might be going on? I feel like I haven't eaten a Then, after you, I feel like, I just want Like, I just want to continue to eat.

Yeah, like, if you're done, you'll say, eh, it's delicious.

[@3:25](#) - Xinyi

Then I just want to eat. Okay.

[@3:28](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

Okay.

[@3:30](#) - Xinyi

Uh...

[@3:30](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

Will you feel like, if, let's say, you haven't eaten a lot, then you feel like you're deprived?

[@3:37](#) - Xinyi

Uh... Actually, it's good. Okay. Then...

[@3:41](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

So, it's more of like, after you eaten a lot, then you feel like, it's more... It's more... That's the main thing.

Yeah. Yeah, yeah.

[@3:48](#) - Xinyi

Okay.

[@3:50](#) - Sports Nutritionist James (yeoyiquan@gmail.com)

Uh...

[@3:50](#) - Xinyi

Okay, you have fallen into the guilt track.

[@3:52](#) - Sports Nutritionist James (yeoyiquan@gmail.com)

Yeah.

[@3:56](#) - Xinyi

Okay. So, basically...

[@4:00](#) - Sports Nutritionist James (yeoyiquan@gmail.com)

Usually, when you do this issue, right? Uh, when you can eat three times, the first one because it's good, but the second one is because it's good.

There's a little depressed feeling, plus, like, that feeling guilty. Then, because you're guilty, then your body will feel like, because it's very guilty, then it's not comfortable, then it will feel like good.

Get them to feel comfortable. Even when you feel comfortable, then your body will feel... Maybe it will feel like a little more comfortable, or when comfortable, with a little, like your favorite food, or a more, like you something comfortable.

Yeah, usually one of the few. so normally in terms of solution right first thing you always want to consider is is you

Then just eat that food, and then move on with your life. Eat it and enjoy it, and then just move forward.

Cause if not, you think, sometimes it's less about what you think you should eat, but more about how can you enjoy what you like to eat, and let it fit into your food, go.

So, like for example, you like to eat that potato, what's the potato? tea, okay, so, and you know the potato tea in there is a lot of water, and it also has little of right?

So, but the with that potato is actually it's not a lot of vegetables, but it's not a lot of Yeah!

Then it might be a little bit So one of those things that I would do, that my friends would do is, it's, uh, he would add up that food.

So for example, this food is potato, and there is also a bit of tea, but, uh, you know, maybe I should add a bit, uh, uh, then by, and then add more vegetables.

So I would buy that food, and divide into three. Then, when I eat, I will have, like this, there be three meals that will eat that potato, right?

Then, uh, so that will settle my craving, because I like to that. But I know that I want to eat more vegetables and more vegetables.

So normally, I may add more eggs, might eat more eggs, might buy more eggs, I might might buy vegetables, more eggs.

So I would do Then this way, at least I will like what I'm eating, but then I'm still not neglecting my new friends.

Does that make sense?

[@7:10](#) - Xinyi

But then it's because it's like on the go, then you can't do that.

[@7:19](#) - Sports Nutritionist James (yeoyiquan@gmail.com)

Then another way is, you said it's tough, right? That means if it's you can divide by at least two, right?

Let's know. Actually, it's not very big.

[@7:29](#) - Xinyi

It's like a chicken size, then your hands are bigger, right? Okay. Okay.

[@7:41](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

Then I will, because if, let's say, I will one maybe I will eat that one day, right? Then I will eat that one day, then eat that one day.

So maybe my next meal, will eat more vegetables, more vegetables. Then I will secondly.

[@7:57](#) - **Xinyi**

I will eat Probable-and-lapse, you don't Okay. then this is my lunch. I have my food.

[@8:06](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

Then dinner, I would like to But don't know. But what kind of is not like lunch?

[@8:18](#) - **Xinyi**

I still have Because lunch is more prepared. Oh, okay.

[@8:26](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

Dinner is a bit a meal.

[@8:28](#) - **Xinyi**

It's just my lunch. Yeah.

[@8:34](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

That's good. I actually sent your lunch. What's that? Oh, that's my lunch.

[@8:43](#) - **Xinyi**

If I have to eat the lunch. Okay. Yeah, usually I would eat like 4 chicken, then 1 asparagus. Ah.

It's very expensive.

[@8:53](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

Like, every dinner is like 8, 9. Yeah.

[@8:56](#) - **Xinyi**

So, I want to reduce my lunch. lunch. out. something But I didn't want to eat that on the go, just like, so we didn't find me, then I could take a bath at home, just like, -Eleven chicken breast, right?

Then just, that I have go all the way to home, okay, actually, it's okay, but, but this is, I that on like, seven-eleven.

Yeah. But it's like, you can clock step, right?

[@9:30](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

Yeah, it is.

[@9:32](#) - **Xinyi**

Okay, so we found another option, and how?

[@9:35](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

But it's little because I always try the flavor, then it doesn't taste like black pepper.

[@9:43](#) - **Xinyi**

Black Black pepper is too spicy, okay, but I so so, then, And then, that Yuzu pepper, no. Like, that's my favorite.

Okay. Yeah, that's balance between, I want a little bit spicy, and a little bit spicy. Then, that's the best flavour.

My uncle's flavour.

[@10:05](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

Yeah. The other one, okay.

[@10:09](#) - Xinyi

Okay, 考慮.

[@10:10](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

Okay. But then another reason you might have to eat some chicken breast, you're really good. But the problem is that.

[@10:19](#) - Xinyi

Yeah.

[@10:21](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

At least you have snack, then you just have to eat some snack. That's another way. Okay. But then you said, you're lunch, at the lunch, at the last week.

Yeah.

[@10:34](#) - Xinyi

week is more.

[@10:36](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

Very short in the photo. In the photo, Chaman sukiyaki, Udon, Chamanichi. This is a big.

[@10:44](#) - Xinyi

Yeah. Yeah. That's a little Can you share a little bit? Yeah.

[@10:51](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

The client recently had a trick. He had a baby to the right. So, he's been a couple months. So,

Yeah, so that might be another way to explore. Yeah, but, So it might be something worth just eating also.

Yeah, I think one thing worth exploring is just pre-plan one favorite meal, then the rest you stick to. Or rather, pre-plan easier routine meals, because what seemed to work very well for you is, so you're ready be prepared for meal.

a hot meal. I like the so you're to cook meal, and it's also a hot meal, and And the other time, I think on easy

[@12:00](#) - **Xinyi**

Yes, I still have But I still have that. I bought that. It's like the donkey. It's a pork bone soup.

Okay.

[@12:14](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

So I bought that.

[@12:16](#) - **Xinyi**

I use the pork of the scallop. Okay.

[@12:22](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

Calorie is high? I don't know.

[@12:27](#) - **Xinyi**

But I don't know. I have a record in my business. Okay. That's how I started.

[@12:35](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

Yeah. But calorie-wise, let me try. I don't know. Calorie-wise. Do think you used to eat more?

[@12:51](#) - **Xinyi**

Yeah. But that's why I was just thinking. I don't I don't I think that's price. If you price. is have no surprise.

It's I mentioned mentioned

[@13:10](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

But I think, based on that trend, there is a bit of weight from Saifert, so once a week might be okay, but then maybe speak that news across two news or something might be helpful, so yeah.

Of course, when you look your business, it's hard to find what is. Yeah, last week, it's less. This week, still buy.

Okay. Yeah, there are lot of cups and fats. Like, the business, you can see Okay. So that's something small to take note of love.

Okay. you. Thank Then, what is your plan of action this week?

[@14:07](#) - **Xinyi**

Errrr... Just... ...我的菜多一點, but... Oh,對,我是因為 Thursday and Friday. Thursday,我有 company lunch.

[@14:16](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

Okay.

[@14:17](#) - **Xinyi**

So, I don't know,是在一個Hotel. So,我不懂是Buffet,還是Gast normal lunch.

[@14:23](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

Okay. Yeah. That means dinner, you can skip cups now. Yeah.

[@14:29](#) - **Xinyi**

Then maybe I'll skip dinner. If I turn to the buffet, then... Okay. Speak up, you can speak up and then eat protein.

[@14:37](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

Okay. Normally, I'll see the situation. Nowadays, because I'm a little young then, so I'll just... Err... I'll just... I'll just...

just... Happen to me like that. Then... Err... Normally, I'll put a meal, and then my family won't be like that.

If I actually pass a I'll be able to find something. I'll just... I'll just... I'll Like... Uh... So were just following them, yeah.

Then dinner I would eat better, and then dinner I eat better, yeah. Then I would just take note of like, what the lunch or dinner was just a number, it was just for people to follow, yeah.

So we used to have this, this kind of I don't In last few weeks, were two catered buffet, one high school, one Senses Unlimited, and what?

There were Wow, I actually had to eat a lot. There were no ice cream. Yeah, but like, is... Okay, firstly, was still running.

I was running little bit, but I still running. Then, secondly, I think what helped is, just make sure my meal could be...

His meal size could be so big. Then whenever occasion, I would just try... Try to share, those are the few things that I did, yeah, it's okay, consider trying those things, then for the important points that feel guilty, so the moment you start to feel guilty, then literally you consider just message more, then just share AHI8 this and then feel guilty, then what do I do about it now, then at least we can talk about mental reframe, because essentially how this works is that if we share the guilty, we're so sensitive to each other, like, okay, I'll say I'm going pursue food, or like, it like discomfort, yeah, so what you basically want to do in terms of discomfort is to consider why you don't feel comfortable, and how can you get rid of that syndrome, and from the body's point of view, unfortunately, it's usually food, so, then you can say, you're guilty, then you eat, then you're guilty, then you're trapped, yeah, okay, so that's, I think that's the one big thing, that, okay, in general,

So let's say niyao si ka suu, right, the view of time is always, you know what you're eating, you enjoy it, and then you just move on with life.

Yeah, so that at least, like, maybe for example, like a potato plastic, that's what you want to eat and what you like to eat, right, and it's still too heavy, and that's what it's about.

So actually, now that I enjoy this, actually, what's when it's just to have you, and then what do I need to talk about?

So, when you listen to that, okay, actually, put it also, actually, in the time, so it's been settled, and then it can be done by yourself.

So, by that logic, after I just consider, you know, if you're eating food, then go for it, go for for for for it.

Yeah, then it helps to break that cycle, because now you're thinking about it, you can't point your environment, you're thinking about it, just move on and move on.

Yeah, and I mean, working with us, we're going to do it. So, yeah, the only person who is studying your sass is your sass.

[@17:52](#) - **Xinyi**

Okay. You can sell sassbo la.

[@17:54](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

you're so quick.

[@17:55](#) - **Xinyi**

Yeah, you're so quick. Yeah.

[@17:57](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

You're so quick. Yeah. Like the last thing you want to do is a cell sample when you end up eating more.

Yeah, yeah, then you just go to and move on. But then you don't eat at all. Yeah, that's my take.

Because you have to eat good things, you might have to eat well. But then you're going to all. Right.

Okay. You still have to go to calories, you're not worth burning then... I don't know, you're not worth it.

Okay.

[@18:25](#) - **Xinyi**

Yeah.

[@18:26](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

Makes sense, Yeah. Oh, yeah. Um... Um... I'm going to Adam Mamey is a cornstarch?

[@18:35](#) - **Xinyi**

Um... Uh... It's cornstarch.

[@18:36](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

It has fiber and a protein from what I last remember. Uh... I will use it as an addition to the supplement, but I will not use it as a vegetable.

Oh, okay.

[@18:47](#) - **Xinyi**

Um...

[@18:47](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

But I will use it as a vegetable. Um... But Um... But a good addition, but... Um...

[@18:57](#) - **Xinyi**

I just bought it as a vegetable. Um... Like, Veggie, or Frozen Spinach之類的, but I know how much I'll Frozen Edanami好吃?

[@19:08](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

Yeah, that's I bought.

[@19:10](#) - **Xinyi**

Is that Spinach? I'm not sure. Spinach?

[@19:15](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

Spinach is okay. Yeah, Spinach is okay. I won't say that. Yeah, but like cauliflower and broccoli is a bit difficult to say.

Then Long Bean, Long Bean don't buy. So far, I try a lot of Long Bean, but it's not good.

Yeah. Yeah. Then, yalla, I think those are the main things. For you, the most important thing is to a few people.

If you want to eat a song, then move on in the background, you won't eat at all. That's my take.

Yeah, and probably that would be the one thing that would change your time back for you.

[@19:52](#) - **Xinyi**

Okay. Yeah.

[@19:54](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

Okay, yeah. Okay, thank you.

[@19:57](#) - **Xinyi**

No problem.

[@19:58](#) - **Sports Nutritionist James (yeoyiquan@gmail.com)**

See you in two weeks. I see. See you two
